Department of Computer Science and Engineering

Assignment – II

Year: II Year B. Tech / I Sem

Subject: OOPS Through Java

Branch: CSE – D

Submission: 29/08/2025

1. What are the different access modifiers available in Java? Describe the visibility each modifier provides to class members.
2. Describe the purpose and use of constructors in Java. What are the different types of constructors?
3. Describe the process of constructor overloading in Java with an example program.
4. Write a Java program that demonstrates method overloading by creating multiple versions of a method to calculate the area of different geometric shapes (e.g., circle, rectangle, and triangle).
