

III B. Tech I Semester

Course Code: 23AEC18

MICROPROCESSORS AND INTRFACING

Assignment –I

1. Explain about the register organization in 8086 microprocessor. CO1 L-2 (Understand)
2. Draw and explain the Memory read cycle operation in minimum mode of 8086 processor. CO1 L-2 (Understand)

Assignment –II

1. Explain any four instruction classification of 8086 microprocessor with an example. CO2 L-2 (Understand)
2. Define Addressing Mode. Explain any three addressing modes with examples. CO2 L-2 (Understand)

Submission Date: 13/08/2026
